Auto-Erotism - A Psychiatric Study of Onanism and Neurosis Wilhelm Stekel, 2021-06-28 This vintage book contains a psychiatric study of Onanism and Neurosis written by the seminal Austrian psychologist, Wilhelm Stekel. An interesting and comprehensive treatise on the subject written by the authority on early psychoanalytical theory concerning sexuality, this book constitutes a must-have for student's psychology and collectors of Stekel's work. Contents include: "The Social Function of Onanism", "Masturbation and Neurosis", "Masturbator - Analysis of a School Boy Who Committed Suicide", "Cryptic Masturbation", "Psychogenesis of Guilty Conscious", "Masturbation and Religion", and "General Considerations". Wilhelm Stekel (1868 - 1940) was an Austrian psychologist and physician. He was an early follower of the seminal Sigmund Freud, often described as Freud's most distinguished pupil and commonly hailed as one of the founding fathers of modern psychoanalytical methodology. Many vintage texts such as this are increasingly scarce and expensive, and it is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition. It comes complete with a specially commissioned new biography of the author.

Human Autoerotic Practices Manfred F. DeMartino, 1979 Although scores of books and hundreds of articles have been written on the subject of autoeroticism or masturbation, none of them has been definitive. Manfred DeMartino has now provided us with a definitive work on the subject. As author and compiler, DeMartino has gone through the existing significant information in this area extracting almost all the really important papers and chapters that have so far been published on autoeroticism and has beautifully woven them into a comprehensive volume. He has omitted virtually no notable aspect of this topic and has managed to include a marvelously representative selection of papers by an imposing array of authorities. -- foreword.

Auto Erotica Jonny Trunk, 2021-08-12 The first book of its kind - a car book like no other - offering a deeply nostalgic look at beautiful vintage cars through the superb literature, leaflets and pamphlets that sold them to us. Auto Erotica covers the gamut of motoring in Britain during the 1960s, 1970s and 1980s. These rare ephemeral booklets are full of unusual graphic ideas and concepts. Their fabulous photography, dazzling colour charts, daring typography, strange fold outs and inspiring

styles symbolise the automobile aspirations of generations of Britons. The book is also packed full of era-defining classic cars, from those we love to those you can't remember. Expect fast Fords, the XJS, the TR8, MGs, minis, Maxis, Renaults, Beemers, VWs, Vivas, Citroens, DeLoreans and a whole lot more - amazing motors from the past and even some from the future - as you've never seen them before.

BDSM, Autoerotic Asphyxiation and Other Sexual Oddities Duncan Alexander McKenzie R.N., 2014-08-17 *BDSM, Autoerotic Asphyxiation and Other Sexual Oddities* is a book that looks at the broad range of sexual behaviors that can be considered deviant. The author discusses just how we determine what exactly deviance is, and whether it can be considered to exist at all. The reader will find many surprises in this book, as he names many famous and noted individuals who had sexual tendencies of an unusual nature. He also discusses sex within the context of the Bible and of how the Bible records many forms of sexual behavior, even though some could be considered perverse. He discusses and analyses the death of the Australian rock star Michael Hutchence and concludes that the rock star died while engaging in a sexual technique called autoerotic asphyxiation and that his death was not suicide. It is a book that readers will find informative and the material within surprising. For anyone who wants to read about what happens beyond 'straight' sex then this book is for you.

Auto-erotica Stacia Saint Owens, 2009 Fiction. Winner of the fourth annual Tartt First Fiction Award. A neurotically jealous band of celebrities' children cruelly abandons one of their pack in the desert. A recovering nymphomaniac plots to kidnap her daughter from a religious cult she deems embarrassingly bland. A stage mother starves her daughter into permanent prepubescence then uses her to perpetrate a child abuse scam. Two call girls who operate as a fake twin act suspect each other of murdering their johns. On the dark fringes of Hollywood's sparkle live the eternal strivers, the unsung unknowns whose unquenchable ambition and ambivalent compliance in their own exploitation fuels America's dream factory.

These characters are connected by their tangle of deluded grandeur and wrenching resilience. They are heroines who give a contemporary voice to the mysterious, dangerous, devoid-of-inner-life femme fatales who have long been central to the city's identity through their shadowy roles in the classic L.A. tales of Nathanael West, Raymond Chandler, Charles Bukowski, and Bret Easton Ellis. AUTO-EROTICA is a black valentine to the city of angels.

Autoerotic Asphyxiation Sergey Sheleg, Edwin Ehrlich, 2006 Of the various types of abnormal sexual behavior, the most dangerous and bizarre is autoerotic asphyxiation, also known as asphyxiophilia, sexual hanging, sexual asphyxia, scarfing, breath control play, and terminal sex. Though at least one autoerotic asphyxiation death occurs in the United States each day, it is almost unknown as a distinctive psychopathological entity in forensic medicine and psychology. Dr. Sergey Sheleg and Dr. med. Edwin Ehrlich draw from their own research, as well as the work of others, to provide a comprehensive review of this problem. Bringing together information from a variety of disciplines, *Autoerotic Asphyxiation: Forensic, Medical, and Social Aspects* is a valuable resource for pathologists, criminal investigators, criminologists, coroners, physicians, attorneys, life insurance experts, and funeral directors, as well as parents and living AEA practitioners.

Alejandra Guerrero - Auto Erotica ALEJANDRA. ROSEN GUERRERO (MISS.), Miss Rosen, 2023-12-22 - Second monograph by one of the world's leading female erotic photographers - Guerrero's photographs offer a woman's vision of female erotic art - Features a series of visual stories in which the car is a protagonist - Hardback, quarter bound with photographic panels on front and back covers In the third decade of the 21st century, we are witnessing an unprecedented exploration of female sexual power, while on the other hand reactionary cultural forces contrive to keep women as defenceless as possible. In this context, the work of photographer Alejandra Guerrero can be understood as a clarion call. Hers is a rarefied visual art that marks a turning point for female sexuality in erotica, her eloquent tableaux revealing the intricate ways in which women exert their erotic power. Here we see a future in which women dictate raw, yet refined desires. Each moment comes from the erotic fever dreams of the participants and the desires of the woman behind the camera. Guerrero grew up against a backdrop of sleek automobiles. As a child she would sit in the driver's seat of her mother's Mercedes and dream of one day being in control of such an elegant machine. Her father was a mechanical engineer whose hobby was fixing up cool cars, and she would watch him at work, taking in the details of fins and fenders. It sparked a fascination, which became an adult passion, which eventually inspired an entire body of work. *Auto Erotica* is Guerrero's second monograph with Circa and follows *Wicked Women* down the same electrifying road.

Unusual and Rare Psychological Disorders Brian A. Sharpless, 2017 Many fascinating and important psychological disorders are either omitted from our current diagnostic systems or rarely covered during graduate or medical training. As a result, most mental health students and trainees are never taught to identify, diagnose, or treat them. This lack of attention has real-world consequences not only for patients, but for basic science as well. *Unusual and Rare Psychological Disorders* collects and synthesizes the scientific and clinical literatures for 21 lesser-known conditions. The coverage is broad, ranging from exploding head syndrome and koro to body integrity identity disorder and persistent genital arousal disorder. All chapters follow a uniform structure and introduce each disorder with a vivid clinical vignette. After discussing the historical and cultural contexts for the disorder, authors describe the typical symptoms, associated features, current role in diagnostic systems (if any), and etiologies. Clinically relevant information on assessment and differential diagnosis is also provided. Finally, authors review the treatment options and suggest future directions for research. This unique and engaging volume will not only be a useful resource for researchers and clinicians who already possess expertise in the more well-known manifestations of psychopathology, but it will also be of interest to students and trainees in the mental health professions.

Auto-Eroticism Stekel, 2013-12-19 When this work was first published in the first half of the last century, sexology and the unprejudiced study of sexual activity was in its infancy. In his study of human sexual behaviour, Kinsey was able to state that the majority of human beings had masturbated at one time or another but to us today this seems quite an astonishing statement to have made. The study of human sexuality was surrounded by ignorance and superstition, and the medical profession was regrettably the worst offender and the most ignored. In such a climate, Dr Stekel's book was a revelation much ahead of its time. This edition first published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

Forensic Pathology Reviews Vol 3 Michael Tsokos, 2007-11-15 A collection of cutting-edge accounts of special topics from various fields of forensic pathology and death scene investigation. The authors offer critical insight into the medicolegal investigation of bodies found in water, the forensic aspects of the human immunodeficiency virus (HIV)-1 infection of the central nervous system, deaths in a head-down position, and forensic bite mark analysis. Additional chapters address taphonomic changes in human bodies during the early postmortem interval, arrhythmogenic ventricular dysplasia that produces sudden death in young people, the postmortem diagnosis of death in anaphylaxis, and iatrogenic deaths. The forensic aspects of suicide, murder-suicide, and suicide trends in the United States are also discussed, along with the evaluation of fatal pulmonary thromboembolism and the use of radiology in medicolegal investigations.
