Small Island States & International Law Carolin König, 2022-12-30 What happens under international law if a state perishes due to rising sea levels without a successor state being created? Will the state cease to exist? What would this mean for its population? Have international law and globalization progressed enough to protect the people thus affected, or does international law still depend on the territorial state when it comes to protecting entire populations? Exploring these issues, this book provides answers to these pressing questions. Focusing on small island states as actors in the international community, it evaluates the challenges that the state as a subject of international law faces in general from globalization and humanization, and what this means for small island states threatened by rising seas. Highlighting the experience of the indigenous peoples of small island states as collectives, and to the individuals living in these states, the book addresses fundamental questions of general state theory and international law, drawing on an extensive body of source material. As rising sea levels present an increasingly pressing threat to small island states, this book highlights the importance of international protection of the individual and the capacity of international organizations to act within existing international law. It identifies pressing problems where immediate action is required and argues that, in future, the responsibility for protecting individuals could shift to the international community, if a sinking island state can no longer protect its population on its own.

Brussels I Regulation Ulrich Magnus, Peter Mankowski, 2007-01-01 This commentary is the first full scale article-by-article commentary in English ever to address the Brussels I Regulation. It is truly European in nature and style. It provides thorough and succinct indepth analysis of every single article and offers most valuable guidance for lawyers, judges and academics throughout Europe. It is an indispensable working tool for all practitioners involved in this field of law. The Brussels I Regulation is by far the most prominent cornerstone of the European law of international civil procedure. Its imminence could be easily ascertained by every practitioner even remotely concerned with cross-border work in Europe. However arcane private international law in general might appear to practitioners - the Brussels I Regulation is a well-known and renowned instrument. A true first: - The first truly European commentary on the Brussels I Regulation, the fundamental Act for jurisdiction, recognition and enforcement throughout Europe - The first commentary on the Brussels I Regulation written by a team from all over Europe - The first article-by-article commentary on the Brussels I Regulation in English

Maximum Wireless Security Cyrus Peikari, Seth Fogie, 2003 0672324881. A detailed guide to wireless vulnerabilities, written by authors who have first-hand experience with wireless crackers and their techniques. Wireless technology and Internet security are the two fastest growing technology sectors. Includes a bonus CD packed with powerful free and demo tools to audit wireless networks. Reviewed and endorsed by the author of WEPCrack, a well-known tool for breaking 802.11 WEP encryption keys. Maximum Wireless Security is a practical handbook that reveals the techniques and tools crackers use to break into wireless networks, and that details the steps network administrators need to take to secure their systems. The authors provide information to satisfy the experts' hunger for in-depth information with actual source code, real-world case studies, and step-by-step configuration recipes. The book includes detailed, hands-on information that is currently unavailable in any printed text -- information that has been gleaned from the authors' work with real wireless hackers (war drivers), wireless security developers, and leading security experts. Cyrus Peikari is the chief technical officer for VirusMD Corporation and has several patents pending in the anti-virus field. He has published several consumer security software programs, including an encrypted instant messenger, a personal firewall, a content filter and a suite of network connectivity tools. He is a repeat speaker at Defcon. Seth Fogie, MCSE, is a former United States Navy nuclear engineer. After retiring, he has worked as a technical support specialist for a major Internet service provider. He is currently the director of engineering at VirusMD Corporation, where he works on next-generation wireless security software. He has been invited to speak at Defcon in 2003.

Success Against The Odds Paul Hamlyn, 2003-10-04 The follow up to the bestseller *Learning To Succeed*, this book examines one of the key themes of its predecessor, how schools in disadvantaged areas can be effective. An essential purchase for anyone interested in education.

On the Road to High-Quality Early Learning Marjorie E. Wechsler, David L. Kirp, 2018 This timely book will help policymakers and practitioners convert their visions of high-quality early education into on-the-ground reality by providing a much-needed, richly detailed look at how states can design, fund, and manage exemplary programs. The authors describe and analyze how four states—Michigan, West Virginia, Washington, and North Carolina—have built early education systems that positively affect student outcomes. Sharing a commitment to advancing key elements of a quality preschool education, each of the states developed programs with different enrollment requirements, services, and oversight. All of them, however, rely on common overarching strategies, such as: establishing standards and supporting improvement, investing in knowledgeable educators, coordinating and aligning early education programs with elementary school, seeking sufficient funding sources and mechanisms, and building broad-based support. This book offers powerful lessons for anyone who is committed to delivering engaging, age-appropriate preschool programs for all. “This book is so valuable—it’s a ‘how-to’ for the current generation of political leaders, Republicans and Democrats alike, who want to develop early education policies and practices that work.” —James B. Hunt, Jr., former Governor of North Carolina “This book provides critical insights for addressing the key challenge to preschool policy: fulfilling preschool’s promise at scale.” —W. Steven Barnett, National Institute for Early Education Research (NIEER) “A great resource for everybody engaged in state-level processes on behalf of young children, providing valuable lessons from leading states to help other states chart their own path.” —Elliot Regenstein, Foresight Law + Policy “A detailed and fascinating account of how distributive leadership, collaboration, and professional learning can greatly and positively influence teachers’ effective use of data.” —Randi Weingarten, president, American Federation of Teachers

Photoinduced Molecular Dynamics in Solution Gianluca Levi, 2019-09-03 This book explores novel computational strategies for simulating excess energy dissipation alongside transient structural changes in photoexcited molecules, and accompanying solvent rearrangements. It also demonstrates in detail the synergy between theoretical modelling and ultrafast experiments in unravelling various aspects of the reaction dynamics of solvated photocatalytic metal complexes. Transition metal complexes play an important role as photocatalysts in solar energy conversion, and the rational design of metal-based photocatalytic systems with improved efficiency hinges on the fundamental understanding of the mechanisms behind light-induced chemical reactions in solution. Theory and atomistic modelling hold the key to uncovering these ultrafast processes. Linking atomistic simulations and modern X-ray scattering experiments with femtosecond time resolution, the book highlights previously unexplored dynamical changes in molecules, and discusses the development of theoretical and computational frameworks capable of interpreting the underlying ultrafast phenomena.

The Retail Revolution Nelson Lichtenstein, 2009-07-21 The definitive account of how a small Ozarks company upended the world of business and what that change means Wal-Mart, the world's largest company, roared out of the rural South to

change the way business is done. Deploying computer-age technology, Reagan-era politics, and Protestant evangelism, Sam Walton's firm became a byword for cheap goods and low-paid workers, famed for the ruthless efficiency of its global network of stores and factories. But the revolution has gone further: Sam's protégés have created a new economic order which puts thousands of manufacturers, indeed whole regions, in thrall to a retail royalty. Like the Pennsylvania Railroad and General Motors in their heyday, Wal-Mart sets the commercial model for a huge swath of the global economy. In this lively, probing investigation, historian Nelson Lichtenstein deepens and expands our knowledge of the merchandising giant. He shows that Wal-Mart's rise was closely linked to the cultural and religious values of Bible Belt America as well as to the imperial politics, deregulatory economics, and laissez-faire globalization of Ronald Reagan and his heirs. He explains how the company's success has transformed American politics, and he anticipates a day of reckoning, when challenges to the Wal-Mart way, at home and abroad, are likely to change the far-flung empire. Insightful, original, and steeped in the culture of retail life, *The Retail Revolution* draws on first hand reporting from coastal China to rural Arkansas to give a fresh and necessary understanding of the phenomenon that has transformed international commerce.

Angel Investing David S. Rose, 2014-04-28 Achieve annual returns of 25% or more with a well-designed angel portfolio Written by David S. Rose, the founder of Gust—the global platform that powers the world of organized professional angel investing—*Angel Investing* is a comprehensive, entertaining guide that walks readers through every step of the way to becoming a successful angel investor. It is illustrated with stories from among the 90+ companies in which David has invested during a 25 year career as one of the world's most active business angels and includes instructions on how to get started, how to find and evaluate opportunities, and how to pursue and structure investments to maximize your returns. From building your reputation as a smart investor, to negotiating fair deals, adding value to your portfolio companies and helping them implement smart exit strategies, David provides both the fundamental strategies and the specific tools you need to take full advantage of this rapidly growing asset class. He details the advantages of joining an angel group, explains how seed and venture funds can help leverage an investor's resources, and reveals how recent regulatory changes and new online platforms are making startup investing accessible to millions of Americans. Making money is no longer about sitting back and reading stock listings, David says. It is now about being part owner of an exciting startup that can be fun and financially rewarding. *Angel Investing* teaches investors how to carefully select and manage investments, establish a long term view, and approach angel investing as a serious part of an alternative asset portfolio while also enjoying being an integral part of an exciting new venture.

Behind from the Start Lenette Azzi-Lessing, 2016-12-01 Today there are nearly six million children under the age of five living in poverty in the world's richest country. Blanket statements are often tossed around in the political arena, public debate sphere, and progressive rhetoric. But the statistic remains intangible for many Americans, likely because the root

causes, effects, and implications are multifaceted and complex, and are often hard to understand for the average American living a much different reality. What is needed is a clear and thorough discussion of this epidemic, and *Behind from the Start* answers that call. Author Lenette Azzi-Lessing examines what lies behind the stubbornly high rate of poverty among young children in the U.S. and the resulting consequences, both for the children themselves and for America as a whole. *Behind from the Start* examines the link between America's shaming, blaming, and marginalizing of poor parents, and our punitive welfare policies that jeopardize the life chances of vulnerable young children, thereby maintaining the cycle of chronic poverty. Research has shown that the experience of poverty in the first years of life is particularly harmful, blunting physical and brain development, increasing the risk for chronic health issues and injury, and limiting a person's lifelong capacity for learning and success. In debunking the myths that help perpetuate the cycle of poverty in the world's richest country, Lenette Azzi-Lessing reveals how negative public and political discourse regarding poor families impacts the poorly conceived and fragmented programs intended to support them, which have in turn failed to meet their aims. She considers the cultural and political forces that contribute to intergenerational poverty in the U.S., the consequences for the millions of young children in families stuck at the bottom of our economy, and the beneficial impacts that would be felt country-wide in fixing some of these persistent problems. Drawing upon knowledge from diverse fields, including neuroscience, media studies, and public policy, as well as the author's experiences on the front lines as a practicing social worker, *Behind from the Start* offers a fresh take on this shameful problem and its solutions.

Life Is Magic Jon Dorenbos,2020-11-03 "Jon Dorenbos is a magical person. *Life Is Magic* shows how we can all choose happiness in the face of overwhelming odds." —Ellen DeGeneres An extraordinary and empowering story of resilience, forgiveness, and living a life of purpose in the face of unfathomable obstacles. You may know him as an NFL All-Pro or as a world-class magician who made the finals of America's Got Talent, but Jon Dorenbos says that what he does is not who he is. He is someone who coached himself, at the most tender of ages, to turn tragedy to triumph. One morning in August 1992, when Jon was twelve years old and living a seemingly idyllic childhood in suburban Seattle, he woke up for baseball camp. His dad waved goodbye. Later that day, Jon heard the news: his father had murdered his mother in the family's three-car garage. In an instant, his life had shattered. He'd essentially been orphaned. Thrust into foster care while his father stood trial for murder, Jon struggled. Left to himself, he discovered an unlikely escape performing magic tricks. If you found a way to alter your reality, after your dad—your hero—killed your mom, wouldn't you cling to it too? Then came football, which provided a release for all of his pent-up anger. Together, magic and football saved him, leading to fourteen NFL seasons on the gridiron and raucous sleight of hand performances to packed houses across the globe. In 2017, he was diagnosed with a life-threatening heart condition leaving him with a choice. To either break down or—as he'd by now long taught

himself—bounce back. “Life Is Magic shows how we can all choose happiness in the face of overwhelming odds” (Ellen DeGeneres) and provides a roadmap for overcoming even the darkest of times. Jon’s story is poignant and powerful, told by a charismatic and optimistic man who has overcome life-or-death challenges with grace, persistence, a childlike sense of wonder...and jaw-dropping card tricks.

Tractates Ta'aniot, Megillah, Hagigah and Mo'ed Qatan (Mašqin) Heinrich W. Guggenheimer, 2015-04-24 The present volume is the seventeenth and last in this series of the Jerusalem Talmud. The four tractates of the Second Order - Ta'aniot, Megillah, Hagigah, Mo'ed Qatan (Mašqin) - deal with different fasts and holidays as well as with the pilgrimage to the Temple. The texts are accompanied by an English translation and presented with full use of existing Genizah texts and with an extensive commentary explaining the Rabbinic background.

Brussels I Regulation Alfonso-Luis Calvo Caravaca, 2007 This title, part of the new European Commentaries on Private International Law series, is devoted to the Brussels I Regulation, dealing with jurisdiction and recognition of judgments in civil and commercial law matters. Contributors in the series include leading experts from almost all EU member states. The series initiates a new specific European style of commenting on European enactments merging the various, and thus far cross-national, methods of interpretation of legislative acts. Commentaries will pay tribute to the practice of the European Court of Justice and to relevant judgments of national courts as well. Moreover, the needs of practitioners and the requirements of the practice will receive particular attention.

Julius Caesar - Literary Touchstone William Shakespeare, 2005 The evil that men do lives after them; The good is oft interred with their bones...How do you choose between the life of your friend and the future of your homeland? In Shakespeare's Julius Caesar, Brutus, the noblest Roman of them all, has only his personal integrity to help him choose which is the greatest good and where he must place his allegiance. The wrong choice will result in certain personal and national devastation. With its stirring speeches and vivid images of men at both their noblest and most terrible, the play will leave the reader with a deeper understanding of what it means to be human. To make Julius Caesar more accessible to the modern reader, our Prestwick House Literary Touchstone Edition provides in-depth explanation, as well as historical background. Convenient sidebar notes and an extensive glossary help the reader navigate the complexities of the text and enjoy the beauty of Shakespeare's verse, the wisdom of his insights, and the impact of his drama.
