Christopher McDougall

Born to Run Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

Brass Bands of the World: Militarism, Colonial Legacies, and Local Music Making Suzel Ana Reily, Katherine Brucher, 2016-04-15 Bands structured around western wind instruments are among the most widespread instrumental ensembles in the world. Although these ensembles draw upon European military traditions that spread globally through colonialism, militarism and missionary work, local musicians have adapted the brass band prototype to their home settings, and today these ensembles are found in religious processions and funerals, military manoeuvres and parades, and popular music genres throughout the world. Based on their expertise in ethnographic and archival research, the contributors to this volume present a series of essays that examine wind band cultures from a range of disciplinary perspectives, allowing for a comparison of band cultures across geographic and historical fields. The themes addressed encompass the military heritage of band cultures; local appropriations of the military prototype; links between bands and their local communities; the spheres of local band activities and the modes of sociability within them; and the role of bands in trajectories toward professional musicianship. This book will appeal to readers with an interest in ethnomusicology, colonial and post-colonial studies, community music practices, as well as anyone who has played with or listened to their local band.

Chasing the Sun Deluxe Juanes, 2013-04-02 The deluxe e-book edition of *Chasing the Sun* includes rare, behind-the-scenes video footage of superstar Juanes’s early career, shows and concerts, recordings, personal life, and more. Interspersed throughout the text are exclusive interview clips that further explore the passion and truth found in Juanes’s words and offer a true glimpse of the man behind the music. “I’m doing what I believe I was brought to this world to do: to create music that raises awareness, renews hearts, and generates change. I’ll continue looking to the stars and traveling the globe as God permits me. And I hope I have many years left to connect through art, to play my guitar, and to continue chasing the sun.”—Juanes In *Chasing the Sun*, the international music icon and humanitarian shares the incredible story of his life and how music and faith guided his path. In his own un-adulterated words, and with visually arresting images throughout—some of them never before seen—Juanes imparts his defining moments from childhood to present day, reflecting on his spiritual and musical journey and the personal and professional experiences that shaped the man he is today. Born and raised in Colombia, Juanes developed his deep love of music from his family and learned to play guitar at an early age. By age sixteen, he became a founding member, lead guitarist, vocalist, and song-writer for Ekymosis, which went on to become Colombia’s leading hard-rock band. However, it was his career as a solo artist that propelled him toward international superstardom. With great honesty, Juanes reveals how his times of glory were often intersected by times of doubt and soul-searching and how remaining true to his beliefs and passionate about his art gave him the strength and foresight to reinvent himself and his career. While his role as a recording artist is well documented, the very private Juanes has never opened up in his own words—until now.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Ethics of Writing Carlo Sini,2010-07-02 In this groundbreaking work, Carlo Sini, one of Italy's leading contemporary philosophers, brings American pragmatism to the Milan school of phenomenology. Appearing in English for the first time, this book explores the constitutive role of alphabetic writing in the emergence of dominant forms of knowledge in the Western world (philosophy, mathematics, science, and historiography). Taking stock of the contingent nature of what are held as logical truths, he offers an ethical framework for considering different ways of thinking about writing, focusing on possibilities involving practice as a basis for a renewal of theoretical philosophy. Such a framework, Sini argues, opens the door for more productive and ethical communication with non-Western cultures, and indeed for a reconsideration of forms of knowledge beyond mere writing.
