Born to Run Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

Narcoland Anabel Hernandez, 2013-09-10 The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, Narcoland has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, Narcoland takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of

press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels.”

Life is a Dream Pedro Calderón de la Barca, *Life is a Dream*, a work by Pedro Calderón de la Barca, is centered on issues of freedom and predestination. The play unfolds around Segismundo, Prince of Poland, imprisoned since birth by his father, King Basilio, due to a prophecy predicting the ruin of the kingdom under his rule. When Basilio decides to test fate by releasing Segismundo, the plot explores the consequences of this decision. The narrative addresses Segismundo's internal struggle with his destiny and the nature of reality, questioning whether life is a dream from which one can awaken. Other characters, such as Rosaura and Astolfo, weave subplots that interconnect personal desires and social duties, reflecting on justice, honor, and love. Set in a context that blends elements of drama, philosophy, and politics, the play investigates the complexity of the human condition, the ethics of leadership, and the power of repentance and personal transformation. With a structure that includes intrigue, plot twists, and reflections on being and seeming, *Life is a Dream* invites the audience to ponder freedom and determinism.

Cartographies of Diaspora Avtar Brah, 2005-08-18 By addressing questions of culture, identity and politics, *Cartographies of Diaspora* throws new light on discussions about 'difference' and 'diversity', informed by feminism and post-structuralism. It examines these themes by exploring the intersections of 'race', gender, class, sexuality, ethnicity, generation and nationalism in different discourses, practices and political contexts. The first three chapters map the emergence of 'Asian' as a racialized category in post-war British popular and political discourse and state practices. It documents Asian cultural and political responses paying particular attention to the role of gender and generation. The remaining six chapters analyse the debate on 'difference', 'diversity' and 'diaspora' across different sites, but mainly within feminism, anti-racism, and post-structuralism.

The Code Book Simon Singh, 2011-01-26 In his first book since the bestselling *Fermat's Enigma*, Simon Singh offers the first sweeping history of encryption, tracing its evolution and revealing the dramatic effects codes have had on wars, nations, and individual lives. From Mary, Queen of Scots, trapped by her own code, to the Navajo Code Talkers who helped the Allies win World War II, to the incredible (and incredibly simple) logistical breakthrough that made Internet commerce secure, *The Code Book* tells the story of the most powerful intellectual weapon ever known: secrecy. Throughout the text are clear technical and mathematical explanations, and portraits of the remarkable personalities who wrote and broke the world's most difficult codes. Accessible, compelling, and remarkably far-reaching, this book will forever alter your view of history and what drives it. It will also make you wonder how private that e-mail you just sent really is.

Chasing the Sun Deluxe Juanes, 2013-04-02 The deluxe e-book edition of Chasing the Sun includes rare, behind-the-scenes video footage of superstar Juanes’s early career, shows and concerts, recordings, personal life, and more. Interspersed throughout the text are exclusive interview clips that further explore the passion and truth found in Juanes’s words and offer a true glimpse of the man behind the music. “I’m doing what I believe I was brought to this world to do: to create music that raises awareness, renews hearts, and generates change. I’ll continue looking to the stars and traveling the globe as God permits me. And I hope I have many years left to connect through art, to play my guitar, and to continue chasing the sun.”—Juanes In Chasing the Sun, the international music icon and humanitarian shares the incredible story of his life and how music and faith guided his path. In his own un-adulterated words, and with visually arresting images throughout—some of them never before seen—Juanes imparts his defining moments from childhood to present day, reflecting on his spiritual and musical journey and the personal and professional experiences that shaped the man he is today. Born and raised in Colombia, Juanes developed his deep love of music from his family and learned to play guitar at an early age. By age sixteen, he became a founding member, lead guitarist, vocalist, and song-writer for Ekymosis, which went on to become Colombia’s leading hard-rock band. However, it was his career as a solo artist that propelled him toward international

superstardom. With great honesty, Juanes reveals how his times of glory were often intersected by times of doubt and soul-searching and how remaining true to his beliefs and passionate about his art gave him the strength and foresight to reinvent himself and his career. While his role as a recording artist is well documented, the very private Juanes has never opened up in his own words—until now.

A History of the World in 100 Objects Neil MacGregor, 2011-10-06 This book takes a dramatically original approach to the history of humanity, using objects which previous civilisations have left behind them, often accidentally, as prisms through which we can explore past worlds and the lives of the men and women who lived in them. The book's range is enormous. It begins with one of the earliest surviving objects made by human hands, a chopping tool from the Olduvai gorge in Africa, and ends with an object from the 21st century which represents the world we live in today. Neil MacGregor's aim is not simply to describe these remarkable things, but to show us their significance - how a stone pillar tells us about a great Indian emperor preaching tolerance to his people, how Spanish pieces of eight tell us about the beginning of a global currency or how an early Victorian tea-set tells us about the impact of empire. Each chapter immerses the reader in a past civilisation accompanied by an exceptionally well-informed guide. Seen through this lens, history is a kaleidoscope - shifting, interconnected, constantly surprising, and shaping our world today in ways that most of us have never imagined. An intellectual and visual feast, it is one of the most engrossing and unusual history books published in years.

Rachel's Song Miguel Barnet, 1991 A novel about pre-Castro Cuba, told through the story of a famous cabaret dancer.

Glaxo Hernan Ronsino, 2017-01-17 Glaxo is a chilling novel of betrayal, romance, and murder, from a major Latin American writer being published in English for the first time. In a derelict town in Argentina's pampa, a decades-old betrayal simmers among a group of friends. One returns from serving time for a crime he didn't commit; another, a policeman with ties to the military regime, discovers his wife's infidelity; a third lays dying. And an American missionary has been killed. But what happened among these men? Spinning through a series of voices and timelines, Glaxo reveals a chilling story of four boys who grow up breaking horses and idolizing John Wayne, only to become adults embroiled in illicit romances, government death squads, and, ultimately, murder. Around them, the city falls apart. Both an austere drama and a suspenseful whodunit, Glaxo crackles with tension and mystery. And it marks the stunning English-language debut of a major Latin American writer.

Ethics of Writing Carlo Sini, 2010-07-02 In this groundbreaking work, Carlo Sini, one of Italy's leading contemporary philosophers, brings American pragmatism to the Milan school of phenomenology. Appearing in English for the first time, this book explores the constitutive role of alphabetic writing in the emergence of dominant forms of knowledge in the Western world (philosophy, mathematics, science, and historiography). Taking stock of the contingent nature of what are held as logical truths, he offers an ethical framework for considering different ways of thinking about writing, focusing on

possibilities involving practice as a basis for a renewal of theoretical philosophy. Such a framework, Sini argues, opens the door for more productive and ethical communication with non-Western cultures, and indeed for a reconsideration of forms of knowledge beyond mere writing.

Characters in Fictional Worlds Jens Eder, Fotis Jannidis, Ralf Schneider, 2011-01-01 Although fictional characters have long dominated the reception of literature, films, television programs, comics, and other media products, only recently have they begun to attract their due attention in literary and media theory. The book systematically surveys today's diverse and at times conflicting theoretical perspectives on fictional character, spanning research on topics such as the differences between fictional characters and real persons, the ontological status of characters, the strategies of their representation and characterization, the psychology of their reception, as well as their specific forms and constellations in - and across - different media, from the book to the internet.

Peasants into Frenchmen Eugen Weber, 1976 France achieved national unity much later than is commonly supposed. For a hundred years and more after the Revolution, millions of peasants lived on as if in a timeless world, their existence little different from that of the generations before them. The author of this lively, often witty, and always provocative work traces how France underwent a veritable crisis of civilization in the early years of the French Republic as traditional attitudes and practices crumbled under the forces of modernization. Local roads and railways were the decisive factors, bringing hitherto remote and inaccessible regions into easy contact with markets and major centers of the modern world. The products of industry rendered many peasant skills useless, and the expanding school system taught not only the language of the dominant culture but its values as well, among them patriotism. By 1914, France had finally become La Patrie in fact as it had so long been in name.

Beating the Street Peter Lynch, 2012-03-13 Legendary money manager Peter Lynch explains his own strategies for investing and offers advice for how to pick stocks and mutual funds to assemble a successful investment portfolio. Develop a Winning Investment Strategy—with Expert Advice from “The Nation’s #1 Money Manager.” Peter Lynch’s “invest in what you know” strategy has made him a household name with investors both big and small. An important key to investing, Lynch says, is to remember that stocks are not lottery tickets. There’s a company behind every stock and a reason companies—and their stocks—perform the way they do. In this book, Peter Lynch shows you how you can become an expert in a company and how you can build a profitable investment portfolio, based on your own experience and insights and on straightforward do-it-yourself research. In *Beating the Street*, Lynch for the first time explains how to devise a mutual fund strategy, shows his step-by-step strategies for picking stock, and describes how the individual investor can improve his or her investment performance to rival that of the experts. There’s no reason the individual investor can’t match wits with the experts, and this book will show you how.

Another Beauty Adam Zagajewski,2002 This brilliant memoir is Adam Zagajewski's recollection of 1960s and 1970s communist Poland, where he was a fledgling writer, student of philosophy, and vocal dissident at the university in Krakow, Poland's most beautiful and ancient city.
